

MOBISCREEN MS 16 Z

MOBILE SCREENING PLANTS

Mobile screening machine for recycling applications and processing of natural stones.

MOBISCREEN

Extremely rugged mobile screening machine for feeding capacities of up to 350 t/h. For processing natural stone as well as for recycling applications.

Feeding size up to max. 150 mm (6")

Plant in particular consisting of:

Feeding hopper 8 m³
with tilting slotted grate
by means of remote control

Feeding belt conveyor
1200 mm wide
3500 mm long

Belt conveyor
1050 mm wide
9600 mm long

Double-deck vibration screen
1520 mm x 4270 mm
lower deck: 3660 mm

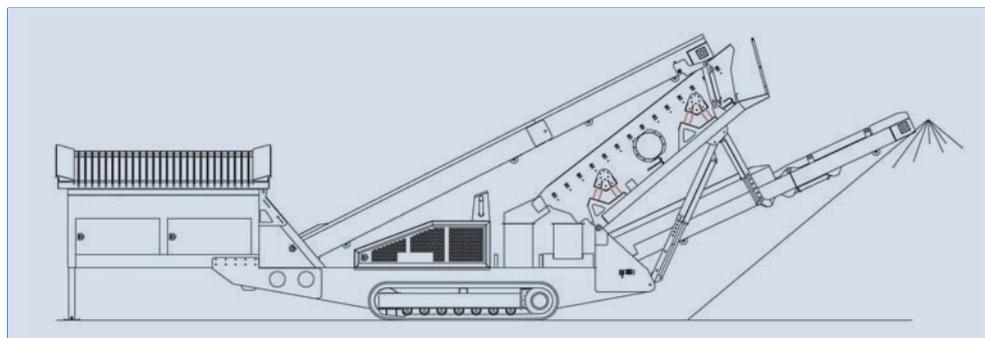

Belt conveyor (oversize grain)
650 mm wide
9100 mm long
discharge height 4600 mm

Belt conveyor (medium fractions)
650 mm wide
9100 mm long
discharge height 4600 mm

Belt conveyor (fine fractions)
1200 mm wide
6300 mm long
discharge height 3900 mm

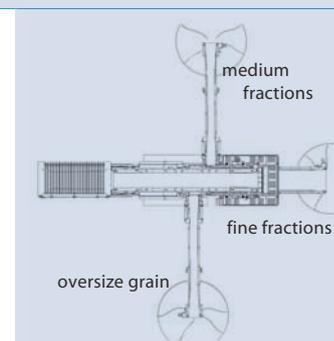

Crawler chassis D 3

Diesel-Hydraulic drive
CAT-Diesel engine 75 kW

Working measurements:

length:	16400 mm
width:	15900 mm
height:	5600 mm

Transport measurements:

length:	15420 mm
width:	2900 mm
height:	3400 mm
weight:	ca. 27 t

As options are available:

- Remote control
- Vibrating grid
- Shredder
