

TABLE TOP FOLDER TF MINI *plus*

The small marvellous folder for a large variety of folding applications.

Extremely silent, precise, fast, variable, compact and user friendly.

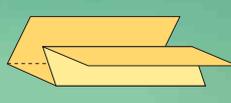

Single fold

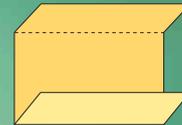

Wrap fold

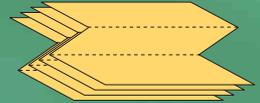

Z-fold

Double parallel fold

Door fold

Nest fold

The small professional folder without the cost!

The TF MINI plus is a real professional, through the large variety of folds it can perform. No matter, which type of fold you choose, the folds are always accurately and your mail will appear with a professional touch.

The TF MINI plus is at least 15 times faster than folding manually. An economical investment already when folding over 25 documents per day. The separate daily-mail station can fold up to 5 documents at once, even when they are stitched!

The TF MINI plus can process without any adjustment a large variety of different paper weights and surfaces. Just load the paper and go. The variable speed ensures an optimised folding process.

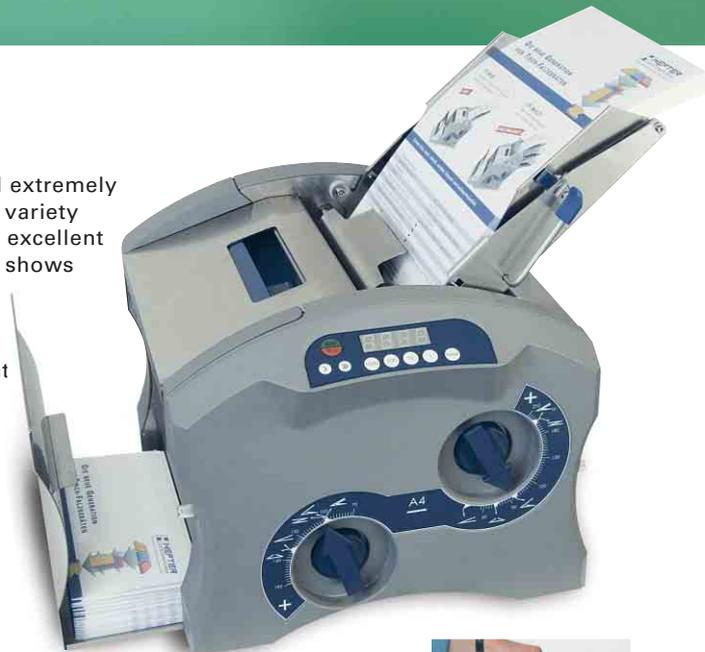

The TF MINI plus is a solid and reliable folder that can process larger quantities, if re-quired. It is extremely silent and is de-signed to be used in offices environments. That is possible due to the folding pockets being located inside the machine.

Unpack, plug & play: TF MINI plus is ready to use

That compact, universal and extremely silent folder enables a large variety of folding applications at an excellent price performance ratio and shows extraordinary technical details like

- Quick and fine adjustment of the two folding plates
- A resettable counter
- A pre-counter enables to determine an exact number of documents to fold
- Paper end control
- Removable paper tray
- Exchangeable feed roller
- Exchangeable separation pad

Try for yourself and you will be convinced.
